DETAILED ACTION

Response to Arguments

Applicant's arguments filed 05/22/2006 have been fully considered but they are not persuasive. The language "a vehicle cup holder" does not provide an more structural limitation other then it has to be an area located on a vehicle. For instance one could use the space in the center console to hold their cup and some center consoles are rectangular in shape and capable of supporting the dispenser cited in the earlier action. In a addition a surface like the dashboard which is large and relatively flat because it is still capable of holding a cup but not as well as a cup holder which may be a cylindrical depression sized to fit a cup of certain dimensions.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,16,19 and 26 rejected under 35 U.S.C. 102(b) as being anticipated by Angermeir USPN D374,360.

(Re claim 1) "a package containing at least on disposable article" (title). "the package comprising a top, a bottom, and a non-circular sidewall" (figure 1). "Means for adapting the package to either fit into or be attached to a vehicle cup holder" (description of figure 6). Wherein the cup holder is a large flat surface. "means for adapting comprises a fifth panel" (description of figure 6).

(Re claim 16) "fifth panel comprises an adaptor member" (description of figure 6).

(Re claim 19) "fifth panel is attached to the bottom" (figure 6).

(Re claim 26 dependent on claims 1 and 16) "package comprises a carton the sidewall comprises four generally rectangular panels, a dispensing opening is located in the top, and the disposable article comprises a paper product" (figure 6 and title).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 22 recites the limitation "the circular body has a diameter" in line 1. There is insufficient antecedent basis for this limitation in the claim when it depends from claim 16.

Allowable Subject Matter

Claims 17, 18 and 22-26 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
